Why Security Matters

Security is no longer optional. Every week we speak to people who thought, “it won’t happen to me” — until it does. Break-ins, vandalism, stolen tools and livestock losses are real risks for homes and farms across the region, and cheap systems often fail exactly when needed — missing footage, dropping out in bad weather, or with no night vision at all.

Check in on your home from anywhere, anytime — peace of mind for the whole family.

What You Need

- **See who's at your door and know the moment someone enters your property**
- Check your cameras from your phone, anywhere, anytime
- Get instant alerts, day or night, when something happens
- Reliable security that still works if the power or internet goes down
- A system installed neatly and correctly the first time — not a quick, messy job

Our Home & Farm Solutions

Home Security	See who's at your door, know when someone enters your property, and check your cameras from anywhere, anytime
Farm Security	Watch sheds, gates, machinery and livestock around the clock — solar-powered, no mains power required
Intercoms & Access	Communicate with, view and manage who comes onto your property from anywhere

Solar-powered security that works off-grid, 24/7 — view from anywhere, instant alerts, motion detection that works.

Why Choose Moore Solutions

25+ years of local Far North Queensland experience	Licensed security installer, working at heights certified
Neat, tidy installs — cabling concealed and out of sight	Fast local service — no waiting on interstate call centres
Solar-powered options for off-grid properties	Local Cairns-based team who know FNQ conditions

We design every system from a network engineer’s perspective — understanding camera angles, night vision, signal strength and how everything connects — not just hardware installation. That means fewer call-backs and a system that actually works when you need it.

What Our Clients Say

Reviews from verified Google customers.

“Craig is fantastic, knowledgeable and so easy to deal with. We’ve installed a camera system at our home and it’s given us peace of mind that our belongings are secure, and we can check in remotely on our phones.”

— Monica Smith, Google review

“Very impressed with the quality of the cameras installed and the advice on other tech issues. Craig explains everything so it makes sense and provides products that will be effective long term.”

— Stayce Flower, Google review

Proud to Support Our Local Community

Moore Solutions is a majority female-owned local Cairns small business. We're proud to give back to the Far North Queensland community we serve:

- Active volunteers with Marine Rescue
- Sponsor and donor to local charities, sporting clubs and individual athletes
- Supporter of local produce and Far North Queensland farmers
